

Information regarding physiotherapy including home visits

You need a prescription for physiotherapy before the first treatment.

The duration of a single treatment and that of the entire series of treatments is dependent on prescription and medical condition.

Home visits need to be additionally prescribed by a doctor.

Standard prescriptions as an example: 10x Physiotherapy a 45min. (or 30min.)
Eventually, if required additionally: 10x Massage a 15min.
Additionally: 10x home visits

In order for a refund of costs from your health insurance provider the prescription needs to be approved at the beginning of the physiotherapy.

When early improvement occurs, the series of therapy treatments can be ended prematurely. The refund of costs from your health insurance provider is possible at any time.

At the end of the series of treatments you receive an invoice as well as an application form for refund of costs from your health insurance provider.

Please pay for individual treatments directly after treatments.

Appointment scheduling:

Gregor Schaffarik

Phone: 0699 133 29 865
