

GREGOR SCHAFFARIK
physical therapist – www.schaffarik.at

Ambulatory rehabilitation for prosthesis users:

You need a prescription before coming to the first treatment.

Standard prescriptions as an example: 10x physiotherapy a 60 min. (or 45 min.)

In order for a refund of costs from your health insurance provider the prescription needs to be approved at the beginning of the physiotherapy.

Please pay for individual treatments directly after treatments.

*The therapy takes place at company DA VINCI
(Leopoldauerstrasse 143, 1210 Vienna)*

*The therapy takes place at company PHOLIG AUSTRIA
(Altmannsdorferstrasse 89, 1120 Vienna)*

*Please bring all available diagnostic findings (x-rays, MRI, CT,...)
as well as a bed sheet (or fitted sheet) to the treatment with you!*

Rates:

<i>3-4 h first diagnosis & physiotherapy</i>	<i>...240,00 Euro</i>
<i>90 min. physiotherapy</i>	<i>...150,00 Euro</i>
<i>60 min. physiotherapy</i>	<i>...100,00 Euro</i>
<i>45 min. physiotherapy</i>	<i>...75,00 Euro</i>

*A complete and comprehensive first diagnosis will be established
at the start of the therapy sessions.*

Diagnosis:

First diagnosis: duration of approximately 3-4 hours

Final diagnosis: duration of approximately 2 hours

*(the final diagnosis, will be just if you need this,
established at the end of a therapeutic series.)*

The first diagnosis comprise the following:

- Video gait analysis*
- Muscle strength measurement with electronic dynamometer*
- Establishing of range of motion of the joints by plurimeter*
- Testing of the trunk strength in all levels*
- Detailed therapy planning including home program*
- Video control of gait pattern*
- Control of muscle power and range of motion of joints*
- Summary including handout*
